

Professional Development Pathway

ECT Mentor

Overview

A Mentor plays the most important role in supporting a new teacher's development. In the first week of term, the nominated Mentor will meet their Early Career Teacher (ECT). This is a chance to discuss ways of working and the Early Career Teacher's (ECT's) areas for development, with a focus on the first module related to behaviour and high expectations.

Mentors will attend online seminars each half term to complement the modules being undertaken by their ECTs. This will enable them to tailor and align support accordingly.

They will provide instructional coaching through regular meetings with their ECT.

If you are interested in finding out more about this role, please do not hesitate to ask your Line Manager or Headteacher.
